Measures to Prevent COVID-19 Infections

In concern of the third-wave of COVID-19 infections in Hong Kong, SHOP Taka Ishii Gallery will implement the following measures:

Measures for Staff:

- Monitor body temperature in the morning and evening.
- Any staff with symptoms of respiratory infection or fever shall consult the doctor immediately.
- Regularly sterilize hands within work hours.
- Wear a mask all the time.
- Keep a distance when talking to other staff and clients.
- Sterilize frequently-touched objects (i.e. iPad, displayed lists, telephone handsets, and doorknobs) regularly.

Measures for Visitors:

- Appointment system is implemented to minimize the number of visitors to maintain social distance.
Please register via telephone or fill out our contact form on the website.
If you have symptoms of respiratory infection or fever please visit SHOP after recovery.
- Upon entry:
 - Please fill in the health inquiry form;
 - Body temperature will be taken, visitors with records $\geq 37.5^{\circ}\text{C}$ are not allowed to enter SHOP;
 - Please sterilize your hands.
- Please wear a mask all the time during your stay.
